INTERNATIONAL ELECTROTECHNICAL COMMISSION

Technical committee 80: Maritime navigation and radiocommunication equipment and systems

Programme of work of the Committee,
as recorded by the IEC Central Office
in its database

The document attached consists of the work programme of the Committee concerned as recorded in the IEC Central Office database on the date noted on the computer listing. It is intended that this document serve as a tool for the review of the programme of work during the meeting of the Committee.

The Secretariat should mark up the document with the decisions taken at the meeting together with any corrections which need to be recorded, and return the document to the Central Office with the report to the Committee of Action, immediately after the meeting (if possible, it should be handed to the Central Office representative at the meeting).

The decisions and corrections will be recorded by the Central Office and an updated listing will be attached to the Committee of Action report as indicating the work programme of the Committee.
